

The ECCO Group announces the appointment of Bill Davis as Vice President & General Manager of ECCO Heating Products Ltd.

August 2019, Langley, British Columbia – Bill Davis joined ECCO™ in 2018 as Director of Sales Branch Operations with an impressive amount of experience as a top-level executive with a number of the world's largest HVAC manufacturers. Over the past year Bill has invested in team member development, created dealer programs and expanded vendor alliances. His contribution has enabled the continued growth and expansion of ECCO's sales branches. "Bill's demonstrated leadership abilities, along with his passion and drive for excellence, have served ECCO well in his short time here" says Stan Alldritt, President and CEO of The ECCO Group. His extensive knowledge of residential and commercial equipment combined with his commitment to serving, supporting and investing in people will allow ECCO to continue to be an industry leader in Western Canada. Bill's commitment to the HVAC industry spans beyond ECCO and he has proudly served on the HRAI Wholesalers Division Board of Directors since April 2019.

With his new title of Vice President & General Manager, Bill assumes leadership from Shaine Nobert who recently announced his departure to venture into an opportunity outside of the industry. In his new role, Bill continues to oversee ECCO Supply, while adding overall responsibility for ECCO Manufacturing and ECCO Machinery. Mr. Alldritt continues, "His commitment to serving, supporting and investing in our people gives me every confidence that under his direction, ECCO will continue to be the industry leader in Western Canada."

ECCO is dedicated to creating the best working environment for employees so they can create the best place for customers to do business. Bill adds, "my focus on unleashing the unlimited potential of our people and our partners is unwavering and in doing so we will build something truly special." With The ECCO Group's upcoming 60th anniversary serving the HVAC and related industries fast approaching, expect many more exciting announcements in the coming months.

About ECCO™
