

Leaping into the Canadian market, American based Smart Frog® Air Conditioners (For Reliable On/Off Grid) from Perfectly Green Corporation® are now available exclusively* through ECCO Supply™

April 2018 – The Smart Frog® from Perfectly Green Corporation® is the First Ever Hybrid Residential Air Conditioning System (HVAC, Standby Generator and Solar Plug-in Play)

Smart Frog® Air Conditioning units are designed for residential and light commercial applications where low operating cost, lower carbon foot print and emergency back-up power supply is desired. This new all-in-one unit is solar ready, with a built-in solar inverter, ready to connect to a solar array of up to 4.5 kW and has an on-board natural gas or propane 7 kw generator. The 23 SEER Air Conditioning unit is approximately 40% more efficient than current code compliant 14.5 SEER AC Units.

When solar PV panels are installed and connected to the air conditioning unit, the power generated by the PV panels over the course of a year can completely offset the power used by the air conditioner, whilst providing supplemental power for the home. Resulting in significant annual energy savings and achieving zero to carbon negative emissions.

The Smart Frog® can operate on or completely off grid, providing heating, cooling and power from one compact unit. This technology appeals to customers wanting:

- a high efficiency air conditioner to save on energy bills;
- a standby power generation solution that is easily deployed, resilient and smart-house ready; and
- a simple onsite solar integration step with HVAC for lower energy bills and emissions footprint.

About ECCO Supply™

ECCO Supply™ offers heating, ventilation and air conditioning professionals a broad range of materials, products and technical knowledge. Locations across Canada include fully stocked warehouses, elaborate displays and showrooms presenting the best possible solutions to customer needs. ECCO Supply™ has established working relationships with contractors, installers, architects and consultants for the HVAC and related industries for over 50 years. Visit ECCO Supply™ online at www.eccosupply.ca.

** ECCO Supply™ has a distribution network for this product across Canada.*
