

## GALVANIZED WATER HEATER DRAIN PANS

ECCO Galvanized Water Heater Drain Pans are intended for installation under gas or electric water heaters to aid in prevention of water damage from a leaking water tank.

- Manufactured from Galvanized steel
- Round pans are available with brass tailpiece attached or with pre-punched opening
- Round pans have rolled safety edge
- Square pans have soldered corners and 1/2" safety hem
- Brass tailpiece (1-1/2" Ø × 2-5/8") may be purchased separately
- Custom sizes available upon request
