## INSTALLATION AND WARRANTY INFORMATION

### COMPLIES WITH ANSI LC1

### CSA 6.26

### CSA DESIGN CERTIFIED

## INSTALLATION REQUIREMENTS

1. Installation must be performed strictly in accordance with local plumbing and/or building codes, and in accordance with the Ward Design and Installation Guide.
2. Installation must be performed by a trained installer who has been trained in a training program recognized by Ward and has been issued a Certificate of Training from Ward.
3. Pressure testing must be performed during rough construction with piping exposed.
4. Ward assumes no responsibility for product or labour for any system which has been improperly installed.

## WARRANTY

Ward warrants its products to be free from any defect of workmanship and material. If the products are defective, the measure of the damage is the price of the defective goods only. No charge for labour or expense required to repair defective goods, or occasioned by them, will be allowed.

This warranty shall not apply to any part or parts of the WardFlex Gas Piping System product if it has been installed, altered, repaired or misused, through negligence or otherwise, in a way that in the opinion of Ward affects the reliability of, or detracts from, the

performance of the product. Nor does this warranty cover replacements or repairs necessitated by loss or damage resulting from any cause beyond the control of Ward, including but not limited to acts of God, acts of government, floods or fires.

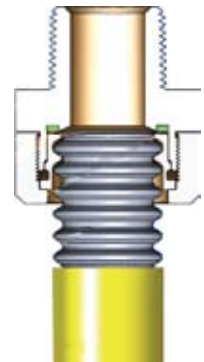

The foregoing is in lieu of any other warranties, expressed, implied or statutory and Ward neither assumes nor authorizes any person to assume for Ward any other obligation or liability in connection with the sales of its products.
