

# INTRODUCING

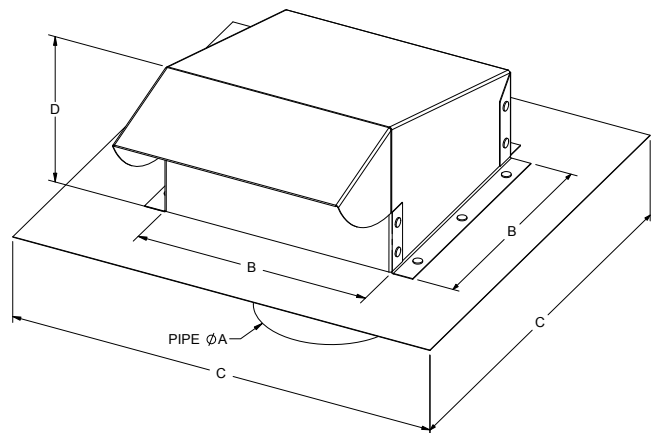

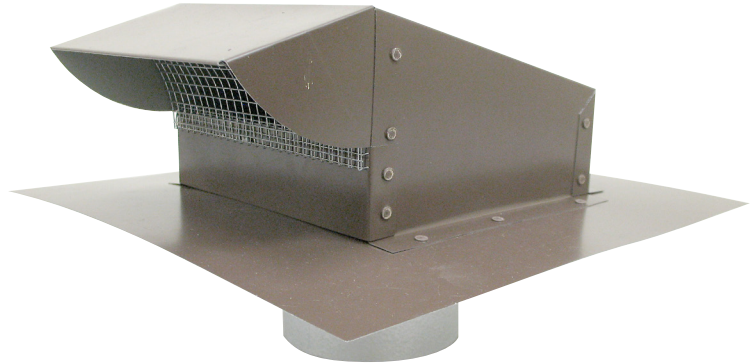

## Metal Roof Vent With Stem

Made of 100% metal, this low-profile roof vent features a backdraft damper as well as a screened exhaust opening to protect against debris. (Screen is removable for flexibility of application).

The low profile design of this roof vent makes it unobtrusive relative to roof line and its metal construction is both non-combustible and corrosion resistant.

Available in two configurations – 4" or 6" stem – as well as two pre-painted metal finishes – dark brown or black.

This roof vent conforms to jurisdictional codes relative to exhaust hood and bath fan exhaust requirements.

Stock #	Description	DIMENSIONS (")
